

Come join us for the Cincinnati

Suburban Swale and Food Forest Workshop

In this revolutionary workshop, you will learn how to create an edible forest while capturing and storing rainwater in the landscape. Through a mix of theory and hands-on activities, students will gain the information and confidence needed to design and implement these regenerative techniques in a variety of landscapes.

This course includes the following topics and more:

- Water harvesting design and implementation
- Contour mapping with low-cost, simple technology
- Forest gardening species selection and design
- Tree planting and maintenance
- Soil improvement and management

Course Details:

Facilitators: Doug Crouch and Sam Dunlap

Dates & Times: November 14th and 15th, 9:30am – 4:30pm

Location: 2979 Parkwalk Dr. Cincinnati, OH 45239

Cost: \$75, call for special arrangements

Registration: Sam Dunlap, sam_dunlap@yahoo.com, 513-403-0047

For more info visit: <http://treeyopermaculture.wordpress.com/about/>

Trained as both a Permaculture Designer and Fish and Wildlife Manager, Cincinnati native **Doug Crouch** has extensive knowledge in landscape planning and creating aquaculture systems for all needs. He has gained a keen understanding of creating productive ecosystems through a wealth of international work in temperate, dryland, and tropical climates. He now uses this experience to run educational programs through **TreeYo Permaculture**.

Sam Dunlap has farmed, taught, and studied permaculture for several years in many places, from Washington State to Kenya. He now lives in his native Cincinnati, bringing his permaculture background and learning back home through teaching and practice. He recently trained with Dave Jacke, author of *Edible Forest Gardens*.
